

Additional resources

1. Read the following sections in The Bethesda Book for Reporting Cervical Cytology 3rd Edition (Ed: Ritu Nayar and David Wilbur).

- [Low-Grade Squamous Intraepithelial lesion \(LSIL\) Pages 137-147](#)

Further notes and images are available at these free online educational websites.

Eurocytology Atlas: the notes are written by a UK cytopathologist for a European audience so some terminology and discussion points differ from the New Zealand context.

www.eurocytology.eu

- Click on Cervical Cytology
- Scroll down to Module 9c. Cytological Abnormalities
- Click on [Squamous abnormalities of the cervix for a discussion on LSIL and Atypical Squamous Cells of Undetermined Significance](#) to access notes and images

ThinPrep images are available on the Hologic (commercial company) website.

www.cytologystuff.com • Click on Study, then on GYN Atlas • Click on Epithelial Cell abnormalities – Squamous Cells • [Click on LSIL and ASC-US sections](#)
